Market position

Vinhomes was established in 2008 and is the leading company in the development, transfer, and operation of real estate projects in Vietnam. In addition, the company was recently ranked first in **the Top 10 Most Reputable Real Estate Companies in 2026** announced by Vietnam Report. This marks the eighth consecutive year that Vinhomes has maintained its leading position in the market, reaffirming its strong reputation, solid market position, and outstanding scale as one of Southeast Asia's top real estate developers. Currently, **Vinhomes operates 27 urban areas** across seven provinces and cities nationwide. The company also owns a land bank exceeding 16,800 hectares.

Business model

Financial performance

The company's revenue growth fluctuated significantly over the years, reflecting the strong impact of market conditions and the cyclical nature of the real estate industry. Revenue growth declined to -26.6% in 2022 before recovering strongly to 66% in 2023 and 49.8% in 2025, showing the company's solid recovery capability after downturn periods. Net profit after tax also improved noticeably during 2023–2025, increasing from more than VND 33.5 trillion to nearly VND 43.4 trillion, indicating better operational efficiency and profitability.

Although ROE remained above 10%, it showed a downward trend from 35.56% in 2020 to 17.83% in 2025, while ROA declined from 17.42% to 6.30%, reflecting weaker returns on equity and assets. EPS also fluctuated considerably, falling to 6,621 in 2022 before recovering to 10,200 in 2025. Overall, Vinhomes still maintains relatively stable profitability and positive long-term growth potential despite pressure on profitability efficiency indicators.

Medium and long-term prospectus

VHM is expected to maintain medium- and long-term growth thanks to its large-scale mega projects, particularly the Can Gio coastal urban development project. This project is considered to have strong potential to become a key urban and tourism hub in Southern Vietnam, contributing to revenue growth and expanding the company's strategic land bank over the coming years.

with its strong land bank and leading position in Vietnam's real estate market.

VHM can maintain positive medium- and long-term growth prospects

RISK TOLERANCE

Vinhomes stock is suitable for investors with **medium to high risk tolerance** due to the company's leading position in the residential real estate sector, extensive land bank, and ability to develop large-scale projects, which provide long-term growth drivers for revenue and profit.

However, the stock is still affected by the slowdown of the real estate market, interest rate pressure, liquidity issues, project legal procedures, and industry competition, all of which may impact short-term business performance.

TIME HORIZON

VHM is suitable for **medium- and long-term investors (approximately 1–3 years)**, as this timeframe allows investors to benefit from the profit recognition cycle of mega projects while reducing the impact of short-term market volatility. With its large land bank, strong project execution capability, and leading position in the residential real estate sector, VHM is considered a promising choice for investors with medium to high risk tolerance.
